Students donate plants and money for Athens Habitat for Humanity site

BY RENÉE DAVID

Everyone is becoming involved in the action at the Habitat for Humanity site in Athens! On July 18 students from Pineview School presented the Stevens family with trees and plants for the property.

The Environmental Team or E-Team planted the seeds back before March Break in preparation for the family. The trees donated were part of a fundraiser run by the school in cooperation with the Brockville Kinsmen. The students sold 400 trees and also

donated \$400 of the money to the project. Furthermore, a donation was made by Mrs. Morrison's grade 5 class who undertook a piggy-banking fundraiser to raise money.

Members of the E-Team and representatives from the Student Council

were present on the site to make the presentations to the Stevens'.

The house is quickly taking form with the walls and tresses now up. Mrs. Tracy Stevens said it is pretty exciting now to see things coming along so nicely.
