Robin Blair was one of approximately 60 volunteers who assisted in guiding those attending the Brockville Homes for Christmas Tour, a fund-raising event organized last Sunday by the Thousand Islands Habitat for Humanity. Six homes decorated for Christmas were featured on the tour. Blair has a special interest in the project since she and her family live in the first Habitat for Humanity home built in Brockville. The effort to raise the \$10,000 needed to complete the fourth Habitat home in Leeds and Grenville, now under construction in the city, is "well worth the effort" according to Blair who volunteered her time to assist another low income family to obtain affordable housing.
